PROFESSIONAL SUMMARY

Full Stack Developer and Team Lead with 3 years of experience developing SaaS applications using MERN and MEVN technologies. Skilled in React.js, Next.js, Vue.js, Node.js, Express.js, MongoDB, REST APIs, authentication, role-based access control and payment gateway integrations. Experienced in recurring billing, Firebase services, production deployment, complex debugging, code reviews, project planning, requirement analysis, client communication and leading developers through end-to-end feature delivery.

TECHNICAL SKILLS

Languages & Web: JavaScript (ES6+), HTML5, CSS3, SCSS

Frontend: React.js, Next.js, Vue.js, React Native, Redux Toolkit, Vuex, Pinia, Tailwind CSS, Responsive Web Design, Reusable Component Development

Backend: Node.js, Express.js, REST APIs, Authentication, Authorization, Role-Based Access Control, Firebase, Push Notifications

Databases: MongoDB, MySQL

Payment Gateway Integrations: Stripe, Razorpay, Cashfree, NMI, Dejavoo

Tools & Deployment: Git, GitHub, Bitbucket, Postman, VS Code, Firebase Console, Google Play Console, Nginx, Production Deployment

Vibe Coding & AI Tools: Cursor, ChatGPT, Claude — AI-assisted development, rapid prototyping and vibe coding workflows

Familiar With: PostgreSQL, Redis

PROFESSIONAL EXPERIENCE

Full Stack Developer **Sep 2026 – Present**

Kanzariya Pharmaceutical Pvt. Ltd. — Jamnagar, India

- Building the company website and developing SaaS-based software products for internal and operational use.
- Developed Butterfly - EMS, a redesigned employee management system with a new UI and company-specific changes.
- Developing Disha - SFA, a sales force automation platform with a React admin web app, a Node.js/Express API and a React Native app for field teams.
- Built role-based permissions, territory hierarchy, geo-fenced attendance, approval workflows, payroll and reporting modules for field sales teams.

Full Stack Developer & Team Lead **Jan 2024 – Aug 2026**

Sparrow Softtech — Bhavnagar, India

- Developed and maintained full-stack SaaS applications using React.js, Next.js, Vue.js, Node.js, Express.js and MongoDB across MERN and MEVN environments.
- Designed, built and maintained REST APIs with authentication, authorization and role-based access control for multi-role platforms.
- Integrated and maintained Stripe, Razorpay, Cashfree, NMI and Dejavoo payment gateways, including recurring-payment and automated-billing workflows.
- Built reusable, scalable and responsive frontend components using Redux Toolkit, Vuex, Pinia, Tailwind CSS and SCSS.
- Led developers through project planning, task allocation, feature management, code reviews, debugging and technical implementation decisions.
- Managed production builds, deployment workflows and releases while resolving complex production issues that affected application stability.
- Implemented Firebase services, authentication and push notifications, and managed MongoDB and MySQL database integrations.
- Communicated directly with clients to analyze requirements, define scope, plan features and deliver production-ready solutions.

Full Stack Developer Intern **Oct 2023 – Dec 2023**

Sparrow Softtech — Bhavnagar, India

- Completed a three-month full-stack development internship while contributing to a Complaint Management System using React.js, Node.js, Express.js, and MongoDB.
- Worked on machine-fault reporting, complaint assignment, status tracking and resolution workflows.
- Fixed application issues and supported administrative modules, feature development and overall application improvements.

KEY PROJECTS

Disha - SFA **Kanzariya Pharmaceutical Pvt. Ltd. | Oct 2026 – Present**

Stack: React.js, Node.js, Express.js, MongoDB, React Native, Redis, BullMQ | Role: Full Stack Developer

- Building a sales force automation platform for pharmaceutical field teams, with a React admin web app and a React Native Android app for medical representatives.
- Developed doctor visit reports, tour plans, expense claims with TA/DA, geo-fenced attendance with selfie, orders and sales tracking.
- Implemented role-based permissions, territory hierarchy, approval workflows, targets, incentives and payroll with salary slips.
- Built with AI-assisted (vibe coding) workflows, reviewing and testing all generated code.

Butterfly - EMS **Kanzariya Pharmaceutical Pvt. Ltd. | Sep 2026 – Oct 2026**

Stack: React.js, Node.js, Express.js, MongoDB, AI-Assisted Development | Role: Full Stack Developer

- Rebuilt the earlier employee management system for Kanzariya Pharmaceutical with a new UI and the changes the company required.
- Covered employee and role management, shift scheduling, attendance and leave management.
- Implemented payroll with Indian salary calculation, monthly reports and role-based access control.
- Built with AI-assisted (vibe coding) workflows, reviewing and testing all generated code.

Gym Management System **Sparrow Softtech | Jan 2025 – Sep 2026**

Stack: Vue.js, Node.js, Express.js, MongoDB, Pinia, NMI, MEVN Stack | Role: Full Stack Developer & Team Lead

- Developed a SaaS platform for managing members, trainers, staff, administrators, gym owners and super administrators through multi-role access control.
- Built class scheduling, service scheduling, attendance tracking, internal communication and digital document-management modules.
- Integrated NMI and Dejavoo for recurring payments and automated billing and implemented e-signature workflows.
- Led end-to-end development, from client requirement analysis and technical planning to implementation and production deployment.

Employee Management System **Sparrow Softtech | Nov 2025 – Sep 2026**

Stack: React.js, React Native, Node.js, Express.js, MongoDB | Role: Full Stack Developer

- Developed a SaaS platform for employee, role, shift, attendance and leave management.
- Built payroll processing with Indian salary-calculation logic and employee bank-detail management.
- Developed monthly attendance and salary-reporting modules with role-based access control.
- Built a React Native employee application that complemented the React.js web platform.
- Built end-to-end using Claude AI (vibe coding), leveraging AI-assisted development to accelerate feature delivery and rapid prototyping.

keyresumes.io **Sparrow Softtech | Jun 2025 – Sep 2025**

Stack: React.js, Node.js, Express.js, MongoDB, REST APIs | Role: Full Stack Developer

- Developed a web platform that helps users create professional resumes, cover letters and public career profiles.
- Built dynamic resume and cover-letter generation with reusable templates and user-controlled content and formatting.
- Implemented authentication, profile management, public-profile sharing and responsive interfaces.
- Contributed across frontend, backend APIs, database design and debugging.

Rental Management System **Sparrow Softtech | Aug 2024 – Dec 2024**

Stack: React.js, Redux, Node.js, Express.js, MongoDB | Role: Full Stack Developer & Team Lead

- Developed a rental-management platform for managing properties, tenants and lease records.
- Implemented automated rent billing, payment workflows, tenant ledgers and financial reporting.
- Implemented role-based access controls for administrators and operational users.
- Led project planning, feature implementation, code reviews, team coordination and delivery.

Contract Management System **Sparrow Softtech | Apr 2024 – Aug 2024**

Stack: React.js, Redux, Node.js, Express.js, MongoDB | Role: Full Stack Developer & Team Lead

- Developed a contract-management platform for a service company, covering contracts with customers for services delivered by field workers such as AC repair technicians.
- Designed and built the complete UI and the database design, including contract creation, quote generation, invoicing and customer management.
- Integrated a payment gateway for processing customer payments and tracking transaction status.
- Led project planning, feature implementation and team coordination as Full Stack Developer & Team Lead.

Bed Configurator **Sparrow Softtech | Jan 2024 – Mar 2024**

Stack: React.js, Node.js, Express.js, MongoDB | Role: Full Stack Developer

- Developed an interactive product configurator that allowed customers to customize bed size, colour, storage, headboard and layout.
- Implemented dynamic product rendering based on selected configuration options.
- Built an administrative module for managing configurable products and available options.
- Created a responsive frontend using reusable React components.

Complaint Management System **Sparrow Softtech | Oct 2023 – Dec 2023**

Stack: React.js, Node.js, Express.js, MongoDB | Role: Full Stack Developer Intern

- Contributed to a system for reporting machine faults and assigning complaints to engineers.
- Worked on complaint status tracking, resolution workflows and administrative management.
- Fixed bugs and supported new feature development and application improvements.

EDUCATION

Bachelor of Engineering in Information Technology **Jun 2021 – May 2025**

CGPA: 6.72

Higher Secondary Certificate, Science — A Group **May 2019 – May 2021**

Percentage: 79%

Secondary School Certificate **Completed Mar 2019**

Percentage: 70%
